To All:

Also attached please find MKC's response to EPA's December 14, 2017 letter. Please note, I do not believe Mr. Crass's description of our conversation in the last paragraph on page 4 of the letter accurately states my position on the call nor does it accurately reflect EPA's position in the matter with regard to providing MKC and WQDNR input on their final state resolution, a copy of which we never were provided before it was filed with the court. I also would like to note that it is highly unusual for opposing counsel to specifically name opposing counsel in a letter to the Agency and then describe a specific discussion between counsel in an ongoing matter in the letter. Thanks.

-John

Mike,

I'll assemble a combined response from our case developers.

I see MK is on this list. I assume CMB will respond to the questions for this site?

Subject: Quick Turnaround Needed!

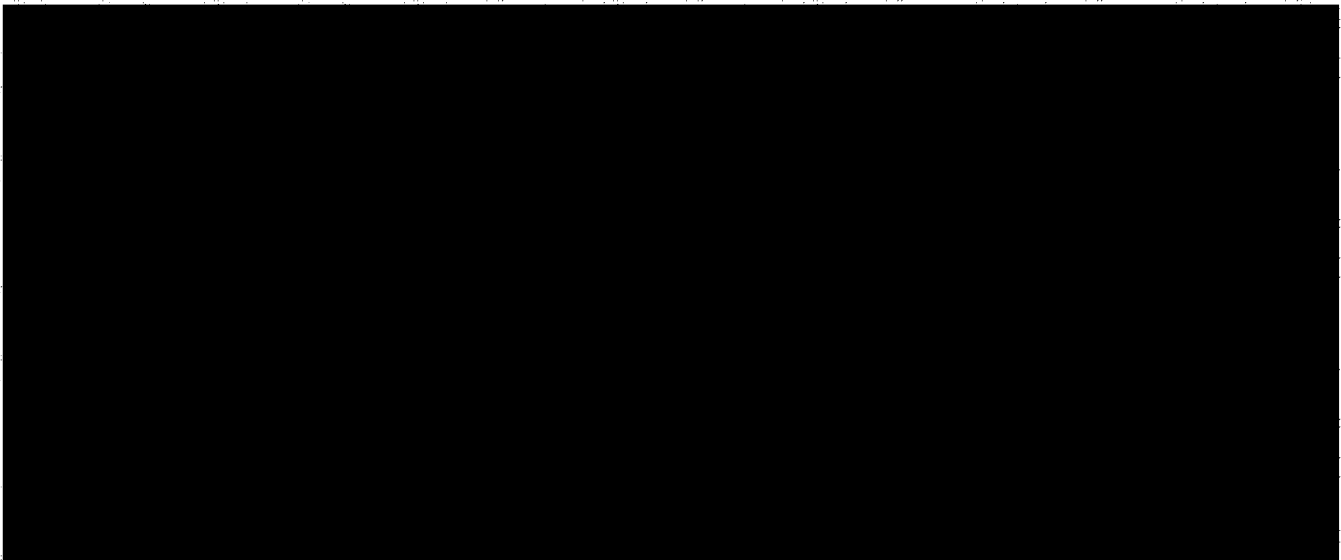

By tomorrow morning, we need a compiled list of open cases in Wisconsin.

Below is a list of cases pulled from the R5 Case Tracking System. Please answer the following three questions in regard to the list:

1. Are any open cases missing from this list?
2. Are any of the cases below "closed" and no longer active?
3. Are you personally aware of WDNR management involvement in the case?
